Summary

Computer Science undergraduate with hands-on experience in software development, backend engineering, and building web applications. Proficient in Python, JavaScript, SQL, REST APIs, and database management, with experience in developing, testing, and debugging applications. Strong foundation in data structures, algorithms, and object-oriented programming, with an interest in building scalable and reliable software solutions. Takes ownership from development to testing.

Education

Sreyas Institute of Engineering and Technology 2023–Present
B.Tech – Computer Science and Engineering CGPA: **9.05**

Narayana Junior College 2023
Intermediate (MPC) **97.6%**

Akshara International School 2021
CBSE (10th) **91.5%**

Technical Skills

Programming: Python, JavaScript, C
Frontend: React.js, HTML, CSS, Flutter
Backend: Django, Flask, RESTful APIs
Databases & Cloud: MongoDB, MySQL, Azure Fundamentals
Concepts: Data Structures, Algorithms, Object-Oriented Programming, DBMS,
Development Practices: API Testing, Unit Testing, Debugging, Software Testing
Tools: Git, GitHub, VS Code | **Currently Learning:** MS SQL Server
Soft Skills: Team Collaboration, Communication, Problem Solving, Ownership, Adaptability

Experience

Backend Intern – Django, Bcommune Technologies Apr 2025 – Jun 2025
- Developed RESTful APIs using Django and Django REST Framework to support backend application functionality.
- Implemented authentication, role-based access control, and API integration for multiple user roles.
- Collaborated with frontend developers in an agile team to integrate APIs and troubleshoot issues.

Full Stack Development Intern – Sanshi Pvt. Ltd. Sep 2026 – Present
- Contributed to full-stack development of a web application using React.js and Python-based technologies.
- Developed and enhanced frontend interfaces and integrated application features with backend services.
- Took ownership of assigned features; performed application testing, identified bugs, and supported debugging.

Projects

Clinical Cost Insight App HTML, CSS, JavaScript, Flask, MongoDB
`github.com/chaitra1205/Clinical_cost_insight`
- Engineered a healthcare price comparison platform to search and compare diagnostic test prices across multiple healthcare centers.
- Integrated Flask RESTful APIs with MongoDB Atlas and implemented RapidFuzz for intelligent diagnostic test matching.
- Enabled users to quickly compare diagnostic test costs through an intuitive search and comparison workflow.

Hospital Management System React.js, Node.js, Express.js, MongoDB
`github.com/chaitra1205/Hospital-Management-System`
- Built a MERN Stack Hospital Management System supporting Admin, Doctor, and Patient portals.
- Implemented secure authentication, appointment scheduling, and RESTful APIs for efficient healthcare management.
- Streamlined patient registration, appointment booking, and administrative workflows through dedicated dashboards.

Leadership Experience

Hospitality Team Lead – TEDxSreyas
- Led volunteer coordination and managed guest interactions during the TEDx event.
- Collaborated with organizing teams to ensure smooth event execution and logistics.
